 - a) The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed (see MPEP § 606.01).
 - b) A new abstract is required that is clearly indicative the invention to which the claims are directed. Note that, the claims are directed to a method of making a semiconductor device instead of to a semiconductor device.
 - c) Related Applications in page 1 should be updated.

The specification has been checked to the extent necessary to determine the presence of all possible minor errors. However, the applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

2) Cancellation of non-elective claims 11- 24.

Reasons for Indication of Allowable Subject Matter

If Applicants are aware of better art than that which has been cited, they are required to call such to attention of the examiner.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
